A Capsule Wardrobe

LADIESWEAR COLLECTION

HS 2112A Ladies Suiting

Historically inspired by the heathers and gorses of the Scottish hillside, ladies wear tweeds are distinctive and unique in all ways possible. Each fabric has been carefully created with colour, weave and texture in mind. The intimate use of colour, the fusion of multiple, exotic fibres and the intricate interlacing constructions, enhance the fabrics appearance, drape and handle, giving each and every one of them their very own unique signature.

These colourful tweeds have been co-ordinated with luxurious stretch cottons, and opulent jacquards, creating a collection of fabrics suitable for any occasion.

This collection of interchangeable pieces provides the ultimate capsule wardrobe for the business professional on the go.

A Capsule Wardrobe

CREPE

HS 2112B Ladies Suiting
100% Wool Crepe (ZZ Twist)
27Ogm 8½oz

The origin of crepe fabrics is unknown; however, we do know they gained popularity in the 19th century, when they were commonly used for mourning attire. Today, crepe fabrics are considered to be some of the most versatile options in high-end fashion, and as such, have become a familiar feature in many modern wardrobes.

Crepe fabrics are attributed to garments that are relaxed and less structured, relying only on nature's silhouette to provide their form. Their beauty is enhanced by their elegant drape, their ability to cascade effortlessly, and to sit naturally as intended. Crepe fabrics are inherently beautiful, undeniably flawless, and most importantly, extremely flattering to wear.

Construction

In line with tradition, the crepe fabrics in this collection are woven from both warp and weft yarns that have been twisted in a “Z” direction. This gives the fabric its distinctive dry handle.

The structure and order of the weave is random and complex, but when coupled with the “Z” twisted yarns, together they give the fabric its unique, rippled 3D texture. This collaboration also provides natural stretch ensuring that garments bounce back into shape when crushed or overly creased. These qualities make our crepe fabrics an excellent choice for travel and business attire.

Why Crepe?

Because crepe fabrics tailor easily and don't require the same interfacings and facings that other fabrics do, they are much easier to care for. They are naturally resilient to creasing, requiring little or no ironing at all; their complex open weave structure, and interlacing “Z” twisted yarns, make crepe fabrics strong, durable, breathable and extremely comfortable to wear.

Garments tailored from crepe fabrics have an impeccable, timeless appeal, and are an asset to any wardrobe. They are easy to maintain and increasingly popular throughout the world of high-fashion, making them a must-have for all seasons.

Wool with Lycra®

SHERRY STRETCH

HS 2113 Suiting

98% Super 100's Wool Worsted 2% Lycra®

100% Super 100's Worsted with natural stretch

230/240gm 7oz

Comprising solid plains, stripes, glen checks and small neat designs, Sherry Stretch is woven from a lightweight plain weave construction which makes these high-performance fabrics a practical choice for those who are constantly on the go.

Lycra® is a synthetic fibre characterised by its exceptional elasticity and its ability to stretch up to six times its original length. For this reason, only a small percentage of Lycra® is required to transform a rigid piece of cloth into something more yielding.

Component Lycra® fabrics are notoriously lightweight and breathable, and provide superior comfort when worn.

When blended with wool, Lycra® offers good crease recovery properties, improves overall durability and aids performance. Garments retain their shape and their overall appearance is preserved. Unforgiving crumple zones are reduced and sagging elbows, knees and pant seats become non-existent.

Fabrics in this collection are woven from a Super 100's merino wool, and having the benefit of 2% Lycra®, they stretch and move in line with the body, are comfortable to wear and fit impeccably.

In summary

- Lycra® is a synthetic elastane fibre that has exceptional elasticity.
- Lycra® can stretch up to six times its original length whilst retaining its original shape.
- Only a very small percentage of Lycra® is required for a fabric to benefit from its characteristics.

Lycra® is a versatile invisible ingredient that improves the performance of both natural and synthetic fabrics.

Luxury Summer Jacketing

OCEANIA

HS 2116 Jacketing
220-360gm 7-11½oz

Oceania is a collection of lightweight summer jackets inspired by the oceans and ocean beds that lie deep beneath them.

Delicate hues of blue, teal, turquoise, warm tans and coral, feature in this comprehensive collection of contemporary checks, windowpanes, semi plains and bold, textured, stripe designs.

The delicate use of colour, texture and design reflect the true glory of this collection, making it one of the most sought after collections for this season.

Wool Mohair Suiting

CLASSIC MOHAIRS

HS 2128 Suiting

85% Super 100's Worsted 15% Kid Mohair

75% Wool Worsted 25% Mohair

230/290gm 7½/9½oz

Holland & Sherry's Classic Mohairs collection includes a selection of superfine wool and mohair blended qualities as well as a comprehensive collection of plains.

Mohair fabrics feel dry, crisp and smooth, are cool to wear and are ideal for cool to wear and ideal for humid environments. They tailor well giving a smart sculptured look that's perfect for a stylish business appearance in hot climates.

Some benefits of mohair blended fabrics:

- Mohair is the clip shorn from an Angora goat and is renowned for its glossy sheen.
- It is very receptive to dye which results in richer more vibrant colours.
- It produces a fabric with intense lustre and sheen.
- It produces a fabric that will hold and retain its shape.
- It produces a cloth that is durable and comfortable to wear.
- It produces a cloth that is easy to tailor, mould and manipulate into some of the finest garments ever created.

The wicking properties of mohair allow the body to stay cool and dry making it an excellent performance fabric.

*Super 100's Wool Worsted &
Super 100's Wool Worsted with Silk*

SERGE & SOLANA

HS 2129 Suiting

100% Super 100's Worsted

84% Super 100's Wool Worsted 16% Silk

220/270gm 7/9oz

Offering unparalleled comfort, Holland & Sherry's Summer Serge collection is comprised of two qualities – both perfect for summer tailoring. The 2921000's are a traditional 2/2 twill serge quality and the 2921100's are a traditional 2/1 quality.

SERGE (2921000's)

A traditional serge made from Super 100's merino wool worsted, and constructed from a 2/2 twill weave. A serge has the same number of threads in both the warp and weft directions and when woven the twill line runs from left to right at a 45-degree angle.

Traditionally, serge cloths were used by the military because of their ability to withstand harsh wear. Today, a serge fabric is considered to be more versatile, making it the ideal choice for core pieces.

SOLANA (2921100's)

Solana, a traditional sun cloth woven in the traditional way!

Sol – the Latin name for sun, Lana, the Latin name for wool – when combined forms the name Solana. With its extensive colour palette, our Solana collection surpasses all others.

This exclusive collection of beautiful, wool-silk, iridescent fabrics are woven from classic coloured warp shades with sun dazzling, vividly coloured wefts! The 2/1 herringbone construction allows the weft colours to discretely shine through, producing fabrics with superior lustre and a stunning array of colour.

3 & 4 Ply Wool Worsted Suitings

AIRESCO

HS 2132 Suiting

100% 3 Ply Wool Worsted

100% 4 Ply Wool Worsted

100% 4 Ply Wool Worsted Comfort Stretch

28O-44Ogm 8½-14oz

Airesco is a new collection of 3 and 4 ply fabrics woven from a plain weave construction and available in a variety of weights. The relationship between yarn and construction produces a unique fabric very different in character to most other fabrics in the Holland & Sherry collection, whilst the soft contrasting colours produce a palette of classic blues, traditional greys and contemporary reds, greens and aubergine.

The construction and coarse characteristics of the 3 and 4 ply yarns provide the fabric with an open but extremely durable structure. This structure allows light to permeate through the small passage between each thread, and air to flow freely through air pockets created by the intertwining, closely woven, wool fibres. These qualities enrich the performance and appearance of the fabric, keeping the body cool and comfortable in the warmest of climates.

These fabrics are attributed with many sought after qualities associated with traditional tailoring of bygone years. They are inherently strong and durable, and have a substantially enhanced handle; one that is firm, crisp and fuller bodied to touch.

The finished fabrics have superior strength qualities that contribute to the wear and drape requirements of the final garment making them the perfect choice for travel and summer business attire.

100% Wool Worsted Suiting

CRISPAIRE

HS 2133 Suiting

100% Wool Worsted

280/310gm 9/10oz

Crispaire first made its debut over 30 years ago and is still very much in demand. Before the advancement of technical yarns and high-twist alternatives, Crispaire was one of the first qualities developed for the purpose of business travel. Its coarse yarn count, traditional plain weave structure and unrefined handle produce a cloth that is full bodied, durable and bounces back into shape effortlessly when crumpled.

Now a popular and reliable core fabric within the Holland & Sherry collection, Crispaire fabrics have many recognisable key qualities appreciated by the artisan tailor.

The full-bodied crimp of the merino wool offers exceptional recovery properties, that produce a natural, high performance, crease-resistant fabric perfect for modern day business attire.

The Crispaire collection offers bold and uncompromising statement pieces, that will look forever new. Its timeless appeal produces a suit with crisp, pristine lines that will always look impeccable, no matter what the journey entails.

Super 120's Worsted Wool

SNOWY RIVER *Lightweight*

HS 2136 Suiting
100% Super 120's Worsted
225gm 7oz

The Snowy River flows across south-eastern Australia from the Australian Alps to the coastal bays. Lush pastures and idyllic weather conditions make this area of Australia a perfect habitat for the finest merino sheep.

Woven from a plain weave construction, Snowy River Lightweight offers a diverse range of stripes, glenplaids and small colour woven neat effects. The colour palette reflects the true spirit of summer ranging from classics to more contemporary tones adding another dimension to this classic quality.

This collection features the following characteristics:

- Merino wool has crimp and elasticity, creating unparalleled style, drape, comfort and performance for the wearer.
- The handle and lustre of the Snowy River wool is exceptionally soft to the touch and can be tailored into the finest quality and most elegant of summer suits.
- The uniformity and consistency of each fibre give Snowy River fabrics added strength.

- Whiter, cleaner fleeces allow for a more efficient dye uptake, resulting in a luxurious fabric with superior colour levelness and light refraction.
- The plain weave construction offers a balanced design that can be matched and tailored with ease.
- Plain weave fabrics are cool to wear making them ideal for warm climates.

Snowy River has been part of Holland & Sherry's collection for many years, it's a quality that we can truly depend upon for quality, style and performance. We believe that the collection we offer for this season will not disappoint.

Holland & Sherry is one of the most prestigious cloth weavers in the world. For over 180 years Holland & Sherry has played a leading role in supplying luxury cloths to the top end of the market and bespoke tailors.

A bespoke tailored garment in luxury Holland & Sherry cloth is truly an investment and always a pleasure to wear.

Since the very beginning in 1836, Holland & Sherry has supplied the famed bespoke tailoring houses of Savile Row with the absolute top-end luxury cloth.
